User Manual - Dead Ants Counter

Prerequisites

Before getting started, make sure you have Node.js installed on your system. You can follow the installation instructions provided in the README.md file to install Node.js on your Mac system.

Installation

Clone or download the repository that contains the JavaScript script.
Ensure that Node.js is installed.

Execution

Execute the following command to run the script:

node countAnts.js

Troubleshooting

If you encounter any issues during installation or usage, please review the installation instructions in the README.md and ensure that Node.js is correctly installed.
